

Introducing the eTensifier

Revolutionary Portable High Pressure Electric Pump

Now there's a high pressure hydraulic pump system that simply plugs into a wall outlet and doesn't require an air compressor. The eTensifier represents new technology introduced by three industry leaders... patent protected motors and controls from Graco, proven hydraulic pumps from Sprague and high pressure components and customer service from HiP.

The eTensifier will deliver pressures to 36,500 psi with a quiet electric motor, a smoother flow rate from zero to full pressure and controls that include an

industry-first pressure test mode that allows you to set a defined pressure and walk away. In addition, the eTensifier features a new quick-connect system for exchanging pump lowers to facilitate routine maintenance without taking the whole pump out of commission.

eTensifier

Plug'n Play Electric Pump System

High Pressure Electric Power

- Up to 36,500 psi
- Needs no air compressor, plugs into wall outlet

3 Industry Leaders Combined Expertise

- Designed for Global conditions
- Lightweight, portable unit
- Integral pressure transducer

Smart Control

- Pressure knob feature for standard jobs
- Pressure test mode – set it and forget it
- Cycle counter for routine maintenance planning

ProConnect

- First-of-its-kind quick change Sprague pump lower
- Install a spare lower to finish your job
- Change size of pump lower in a flash

Smooth/Quiet Hydraulic/Liquid Intensifier

- Smoother flow rate from zero to full pressure
- Electric motor quieter than air powered pumps

2 Year Warranty

- Two year warranty on motor and controls

CE Marked

- Pump is CE Marked as part of company-wide commitment to world class quality

Pressure Transducer Included

- No need to purchase separate pressure gauge
